

Special Issue

Modifications of Biomacromolecules and Their Structure with Functional Properties

Message from the Guest Editors

The editorial board of *Molecules* (IF: 4.6, ISSN 1420-3049) invites you to submit an article or review to a Special Issue entitled "Modifications of Biomacromolecules and Their Structure with Functional Properties". You are kindly encouraged to submit a manuscript(s) to this Special Issue, wherein all research articles, communications, or scientific reviews are welcome. As suggested, the relevant topics can include, but are not limited to, the following: 1) extraction, characterization, and modification of biomacromolecules using green techniques; 2) new modification technologies for biomacromolecules; 3) the effects of modification technologies on the functional properties of biomacromolecules; 4) the modification behaviors and mechanisms of biomacromolecules; 5) the effect of modifications of biomacromolecules on digestion and on human health.

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 29th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
