

## Special Issue

# The Anticancer Drugs: A New Perspective

### Message from the Guest Editors

Cancer is a serious issue that poses a significant threat to human health. In recent years, we have witnessed continuous progress in the development of anticancer drugs. Novel agents, ranging from small molecules to engineered antibodies and immune modulators, have been approved for use in cancer treatment. In addition, the toxic effects on normal, healthy cells could be minimized by developing drugs that specifically target cancer cells. This Special Issue, entitled “The Anticancer Drugs: A New Perspective”, will present research that identifies and evaluates novel anticancer drugs and biological targets, and explores therapeutic approaches to the development of anticancer drugs. We therefore invite researchers working in this field to contribute original research articles and review articles.

### Guest Editors

Dr. Tânia S. Morais

Centro de Química Estrutural, Institute of Molecular Sciences, Instituto Superior Técnico, Universidade de Lisboa, Av. Rovisco Pais, 1049-001 Lisboa, Portugal

Dr. Nuno Xavier

Centro de Química Estrutural, Institute of Molecular Sciences, Departamento de Química e Bioquímica, Faculdade de Ciências, Universidade de Lisboa, Lisboa, Portugal

### Deadline for manuscript submissions

30 April 2026

## About the Journal

### Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

---

### Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
