

Special Issue

Metal Coordination Compounds: Synthesis, Electronic Structure, Properties and Application

Message from the Guest Editor

Dear Colleagues, Metal coordination compounds have attracted considerable attention due to their high stability, good solubility, easy modification, and excellent catalytic activity. Therefore, the exploration of the synthesis, reactivity and application of main group and transition metal coordination complexes has attracted large interest in coordination and organometallic chemistry, due to their excellent catalytic activity in various types of reactions.

Guest Editor

Dr. Zi-Jian Yao

School of Chemical and Environmental Engineering, Shanghai Institute of Technology, Shanghai, China

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
