

## Special Issue

# Marine Bioactives for Human Health

### Message from the Guest Editor

The marine world represents considerable biodiversity and chemodiversity that is still insufficiently explored and exploited. While several examples of molecules or species of marine origin (particularly sponges, algae and microalgae) are known for their uses in human healthcare, cosmetics and the food industry, many others remain insufficiently studied or have yet to be discovered. The aim of this Special Issue is to provide an opportunity to present the molecular and functional characterization of new molecules of marine origin, describe the mechanism of action of new or older marine bioactives at the molecular, cellular or in vivo levels, and offer summaries of the current state of the knowledge in this field. Therefore, original research papers and review papers are welcome.

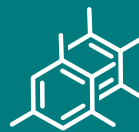

### Guest Editor

Dr. Benoît Chénais

BIOSSE, Biology of Organisms, Health, Stress, Environment, UFR Sciences et Techniques, Le Mans Université, 72085 Le Mans, CEDEX 9, France

### Deadline for manuscript submissions

closed (30 September 2024)

## About the Journal

### Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

---

### Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
