

Special Issue

Discovery and Research of Novel Bioactive Natural Compounds

Message from the Guest Editor

Bioactive natural compounds are rich in beneficial resources from plants, animals, insects, marine creatures, microorganisms and metabolites from biosomes. They are known to contain various active principles of therapeutic value, healthcare value and possess biological activity against a number of diseases. Interest in the field of bioactive natural compounds has been increasing in both developed and developing countries. The aim of this Special Issue on "Discovery and Research of Novel Bioactive Natural Compounds" is to present research and findings on naturally derived compounds. Original research articles or review articles regarding the isolation, extraction, bioactive evaluation and applications of novel natural compounds are welcome.

Guest Editor

Prof. Dr. Guangxiong Zhou

Guangdong Province Key Laboratory of Pharmacodynamic Constituents of TCM and New Drugs Research, College of Pharmacy, Jinan University, Guangzhou 510632, China

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 29th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
