

## Special Issue

# Recent Advances in Fluorescent Probes for the Detection of Biomolecules

### Message from the Guest Editor

Biological active species play a vital role in various physiological processes. It is significant to reveal the different functions of these important species, which have attracted extensive attention recently. Therefore, the detecting and imaging of these bioactive species have become an important research topic. Fluorescent probes and fluorescent imaging have been recognized as the most vigorous techniques to detect these reactive species due to their high sensitivity, selectivity and noninvasive visualization features. Thus, the development of novel fluorescent probes for detecting and imaging of biological active species in living system is urgently needed.

### Guest Editor

Prof. Dr. Zhihong Xu

Key Laboratory of Chemo/Biosensing and Detection, College of Chemical and Materials Engineering, Xuchang University, Xuchang 461000, China

### Deadline for manuscript submissions

closed (31 July 2024)

## About the Journal

### Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

---

### Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
