

Special Issue

Heterocyclic Compounds in Drug Discovery and Their Medical Applications

Message from the Guest Editors

The editorial board of *Molecules* (IF: 4.927, ISSN 1420-3049) invites you to submit an article or review to a Special Issue entitled "Heterocyclic Compounds in Drug Discovery and Their Medical Applications". Heterocyclic systems constitute one of the most relevant families of compounds in organic chemistry, which are widely represented in many fields of science and life. Thus, compounds containing a heterocyclic core are a cornerstone of activity and human life, since heterocyclic systems are a key scaffold for the synthesis of a number of natural products and several biomolecules. Furthermore, heterocyclic systems play a pivotal role in the development of new materials, in the agri-food industry, in food manufacturing, and of course are and will be essential structures in medical chemistry, to develop drugs and diagnostic devices. This Special Issue will present original research using heterocyclic systems to develop new therapeutic, diagnostic or theranostic agents.

Guest Editors

Prof. Dr. Juan F. González

Department of Chemistry in Pharmaceutical Sciences, Faculty of Pharmacy, Complutense University, 28040 Madrid, Spain

Dr. Irene Ortin Remon

Department of Chemistry and Biochemistry, Faculty of Pharmacy, Universidad San Pablo-CEU, 28925 Alcorcón, Spain

Deadline for manuscript submissions

closed (31 December 2023)

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
