

Special Issue

Chitosan, Chitosan Derivatives, Polysaccharides and Their Applications—2nd Edition

Message from the Guest Editor

This Special Issue of *Molecules* is dedicated to recent advances in the research of chitin, chitosan, polysaccharides (e.g., starch), and their derivatives and focuses on highlighting recent interesting investigations conducted in leading laboratories around the world. Our journal is an attractive open-access publishing platform for molecular chemistry research data. The field of polysaccharide systems is still a developing scientific area but a very promising one for many practical applications. This Special Issue will be focused on all aspects of production, modification, enzymology, and the application of chitin, chitosan, polysaccharides, and their many derivatives, as well as polysaccharide-based systems. Prof. Dr. Agnieszka Wiącek

Guest Editor

Prof. Dr. Agnieszka Ewa Wiącek

Department of Interfacial Phenomena, Institute of Chemical Sciences, Faculty of Chemistry, Maria Curie-Skłodowska University, Maria Curie-Skłodowska Sq. 3, 20-031 Lublin, Poland

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 30th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarInLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
