

Special Issue

Chromatographic Analysis of Pesticide Residues in Environmental Samples

Message from the Guest Editor

We are delighted to invite original articles, communications, and review papers to the Special Issue of *Molecules* entitled “Chromatographic Analysis of Pesticide Residues in Environmental Samples”. This Special Issue will present the latest knowledge on applications of coupled chromatography–mass spectrometry for the identification and determination of pesticide residues in a variety of matrices. Of interest will be all reports (reviews and original research) on the possibilities and limitations of the applied research techniques as well as the interpretation of the results from targeted and non-targeted analyses. Contributions that offer significant advances in the use of chromatography for pesticide residue analysis are welcomed, and we look forward to jointly advancing the field.

Guest Editor

Dr. Joanna Plonka

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
