

Special Issue

Herb/Drug Interaction: Evidence and Mechanisms

Message from the Guest Editors

The goal of this Special Issue is to compile the most recent findings from pioneering studies in the vast scientific field of herbal products, offering a forum for presenting novel insights and health consequences related to herb–drug interactions. The scope includes but is not limited to discussions of in vivo and in vitro bioactivities, toxicity, bioavailability, drug metabolism, and gastrointestinal absorption. We hope that the information presented in this Special Issue will be of significant interest to the broad scientific research community and will increase and expand knowledge about herb–drug interaction in human health. This Special Issue will feature the most recent developments in herb–drug interactions as well as pharmacokinetic and pharmacodynamic aspects of promising natural products, and all researchers interested in this area are cordially encouraged to submit original research papers or reviews.

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 29th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
