

Special Issue

2nd Edition: Advances in Alkali-Activated Materials

Message from the Guest Editors

The scope of this Special Issue is to promote broad potential raw materials (precursors and activator), new applications, and a better understanding of the chemical, mechanical, and durability behaviors of AAMs in different applications. Potential topics for submissions include (but are not limited to):

- Precursors of alkali-activated materials (natural pozzolan, construction and demolition wastes, fly ashes, slags, and others);
- Conventional and alternative activators;
- Alkali-activated concretes (design methodology, properties, durability);
- One-part mix designs ("just add water" dry mixtures);
- Hybrid cements;
- Life cycle assessment (LCA)

Guest Editors

Prof. Dr. Ruby Mejía de Gutiérrez

Composites Materials Group (CENM), School of Materials Engineering, Universidad del Valle, Calle 13 #100-00, E44, Cali 760032, Colombia

Prof. Dr. Francisca Puertas

CSIC-Instituto de Ciencias de la Construcción Eduardo Torroja (IETCC), Madrid, Spain

Deadline for manuscript submissions

closed (31 October 2022)

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 29th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
