# **Special Issue**

# Natural Products as Anti-aging and Antidiabetic Agents

## Message from the Guest Editors

Aging is considered an inevitable multifactorial biological process that implicates genomic instability with altered cellular homeostasis and leads to a number of diseases. Although diverse biochemical and molecular pathways are implicated in this process. oxidative stress (OS) and inflammation are the hallmarks of aging. In fact, due to their robust antioxidant properties and minimal side effects, natural products have been increasingly explored with regard to their ameliorative effects against OS and inflammation to protect against cellular damages. Importantly, due to their increased consumption from diet and their potential development as nutraceuticals, research into naturally derived bioactive compounds has become essential to establish their therapeutic properties as anti-aging agents. Beyond their direct effects on aging, this Special Issue is open to contributions on the impact of natural products (toxicological and pharmacological aspects) on complications linked with aging, such as cancer, diabetes mellitus, and cardiovascular diseases, from preclinical models to clinical settings.

## **Guest Editors**

Dr. Ilenia Cirilli

Dr. Fabio Marcheggiani

Dr. Sonia Silvestri

Dr. Phiwayinkosi V. Dludla

## Deadline for manuscript submissions

closed (30 November 2023)

## **About the Journal**

## Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 29th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

#### Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

#### **Author Benefits**

## **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

## **Journal Rank:**

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

## **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
