

Special Issue

Chemistry of Antiparasitic Drugs

Message from the Guest Editor

I would like to announce an opportunity for you to publish an article about the chemistry of antiparasitic drugs in a Special Issue of *Molecules*. New, more specific drugs and ones that are less toxic than those presently used in both medical and veterinary clinics are needed for the chemotherapy of parasitic diseases. This objective involves different complementary approaches where chemistry is the basis of drug innovation.

This Special Issue aims to provide a forum for the dissemination of the latest studies including all these approaches based on drug design, chemical synthesis, and the biological evaluation of new compounds. I hope that you will consider submitting a manuscript for publication in this Special Issue; the deadline for manuscript submission is 1 March 2022.

Kind regards

Guest Editor

Prof. Dr. Philippe M. Loiseau

Biomolecules: Conception, Isolement, Synthèse, Chatenay-Malabry, France

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 29th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of
Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarInLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
