

Special Issue

Wastewater Treatments Based on Adsorption, Catalysis, Biodegradation, and beyond II

Message from the Guest Editors

This Special Issue aims to contribute towards the search for new methods beyond sorption, biodegradation and catalytic degradation and to present new materials for effective (waste)water treatment and purification. We especially welcome works that address emerging pollutants or compounds that are not broadly studied. We encourage the publication of scientific articles, critical reviews, and case studies relevant to the context outlined above, and which generally fall within the field of modern environmental remediation applications.

Guest Editors

Prof. Dr. Yongchang Sun

School of Water and Environment, Chang'an University, Xi'an 710054, China

Dr. Dimitrios Giannakoudakis

Institute of Chemical Sciences, Faculty of Chemistry, Maria Curie-Skłodowska University, Maria Curie-Skłodowska Sq. 3, 20031 Lublin, Poland

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 30th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
