

Special Issue

Bio-Functional Natural Products in Edible Resources for Human Health and Beauty

Message from the Guest Editor

The research fields of this Special Issue include natural products chemistry, phytochemistry, pharmacognosy, food chemistry, bioorganic chemistry, chemical biology, molecular biology, molecular pharmacology, and other related research fields of bioactive natural products obtained from the edible resources. Here, we encourage investigators to consider submitting reviews, regular research papers, and short communications focusing on the different aspects. I look forward to receiving many submissions from outstanding experts in these research fields.

- Natural product chemistry
- Phytochemistry
- Pharmacognosy
- Food chemistry
- Bioorganic chemistry
- Chemical biology
- Molecular biology
- Molecular pharmacology

We kindly invite you to contribute an excellent paper to the SI. You are welcome to visit the [website](#) and submit your paper [here](#). If you have any questions, please feel free to contact Cecilia Li (cecilia.li@mdpi.com), the managing editor from Molecules editorial office.

Guest Editor

Prof. Dr. Toshio Morikawa

Pharmaceutical Research and Technology Institute, Kindai University,
3-4-1 Kowakae, Higashiosaka, Osaka 577-8502, Japan

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 29th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of
Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarInLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
