

## Special Issue

# Synthesis, Characterizations and Applications of Bioactive Heterocyclic Compounds

### Message from the Guest Editors

Heterocyclic compounds are cyclic organic compounds that contain at least one carbon atom and at least one other element such as nitrogen, oxygen, or sulfur.

Heterocyclic compounds are essential to life as they are widely distributed in nature. The synthesis and characterizations of bioactive heterocyclic compounds plays a central role in drug discovery arena and has been one of the most active research areas for decades. This special issue of the open access journal, *Molecules*, devoted to Synthesis, Characterizations and Applications of Bioactive Heterocyclic Compounds. Researchers are cordially invited to contribute original research papers or reviews to this special issue of *Molecules*.

## About the Journal

### Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 30th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

---

### Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarInLit, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
