

Special Issue

Current Advances in Synthetic Bioheterocyclic Chemistry

Message from the Guest Editors

A great number of natural products of terrestrial or marine origin contain a heterocyclic moiety as the main structural feature. Most of these compounds have important biological activities, being used in different fields such as medicine, agrochemistry, and the pharmaceutical or cosmetic industry. As of this Special Issue of *Molecules*, I invite you to provide papers and review articles describing synthetic or biosynthetic approaches to heterocycles. Manuscripts describing total or partial synthesis of bioheterocycles, as well as analogues, are most welcome.

Guest Editors

Prof. Dr. Asunción Barbero

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 29th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
