New Trends in Synthesis and Applications of Bioorganic and Bioinorganic Molecules

Message from the Guest Editor

Bioorganic and bioinorganic molecules are of immense importance in pharmaceutical chemistry, organic chemistry, and inorganic chemistry, especially for the drug industry. New green and sustainable methods are of significant importance in saving our environment from chemical waste. New methods of green synthesis, novel techniques in biological applications, and uses of computational studies with all these will help in modifications of the drug industry, waste removal industry, and many other uses. The collection of all of these in one issue may help and introduce a scientific value to our chemistry research.

Guest Editor

Dr. Magda H. Abdellattif

Department of Chemistry, College of Sciences, Taif University, P.O. Box 11099, Taif 21944, Saudi Arabia

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
