

Special Issue

Molecules for Biotechnologies II

Message from the Guest Editors

In this extraordinary period, in which each of us has been doing our best to overcome the difficulties of the moment, and considering the attention that the biotechnology field has been receiving, we would like to announce a new Special Issue of *Molecules* entitled “Molecules for Biotechnologies II”. This Special Issue welcomes original papers and comprehensive reviews focused on, but not limited to, the design, synthesis, and biochemical characterization of molecules involved in biotechnological applications, such as the development of novel approaches for molecular biosensing in diagnostics and the obtainment of new biomaterials and drug delivery systems. Please refer to the list of keywords for further details.

Guest Editors

Prof. Dr. Giorgia Oliviero

Prof. Dr. Nicola Borbone

Dr. Laura Cipolla

Deadline for manuscript submissions

closed (31 October 2022)

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
