New Studies of Conjugated Compounds

Message from the Guest Editor

Conjugated organic molecules are important molecular building blocks in advanced nanoscale materials and devices. Their application can be widely found in single-molecule devices (e.g., chemo-/biosensors, light-emitters, molecular switches, molecular machines), as well as in much larger macromolecular and supramolecular systems (molecular wires, 2D and 3D conjugated polymers, molecular frameworks, etc.). This Special Issue aims to highlight recent new research directions in this field. The scope of papers encompasses innovative molecular design and synthesis, advanced characterizations, theoretical modeling, and applications in electronic, optical, magnetic, biolabeling, and bioimaging materials and devices.

Communications, full papers, and reviews on the abovementioned topics are particularly welcome.

Guest Editor

Prof. Dr. Yuming Zhao

Department of Chemistry, Memorial University of Newfoundland, St. John's, NL A1B 3X7, Canada

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
