

## Special Issue

# Antibacterial Drug Discovery: Chemical Challenges and Opportunities

### Message from the Guest Editor

Antibacterial drug discovery employs innovative translational sciences, including target-oriented drug discovery, organic synthesis, drug delivery, and analytical and assay methods. The aim of this “Special Issue” is to highlight the challenges and opportunities presented by antibacterial drug discovery. This Special Issue may include original research articles and reviews on drug targets, medicinal chemistry, chemical entities, assays, phage therapy, vaccine, computational chemistry, new formulations, pharmacokinetic and dynamic aspects, and new strategies to using approved drugs.

---

### Guest Editor

Prof. Dr. Michio Kurosu

Department of Pharmaceutical Sciences, College of Pharmacy,  
University of Tennessee Health Science Center, 881 Madison Avenue,  
Memphis, TN 38163, USA

---

### Deadline for manuscript submissions

closed (31 December 2024)

## About the Journal

### Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 30th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

---

### Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
