

Special Issue

Exclusive Papers of the Editorial Board Members of the Natural Products Chemistry Section of Molecules

Message from the Guest Editor

This Special Issue of *Molecules* is dedicated to recent advances in the research area of natural products chemistry and comprises a selection of exclusive papers of the Editorial Board Members (EBMs) of the Natural Products Chemistry Section. This section collects either research articles highlighting interesting results of the research groups of our section's EBMs or review articles in which our section's EBMs discuss key topics in the field. This Special Issue aims to represent our section as an attractive open-access publishing platform for natural products chemistry research.

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarInLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
