Special Issue

Experimental and Theoretical Researches on Hazardous Chemicals: Detection, Protection, and Decontamination

Message from the Guest Editors

Hazardous materials of toxic organic and inorganic materials such as chemical agents, explosives, radioactive materials, and biological agents have been threatened the current and future generations. Its impact has not been limited to the specific region or age group. Boundless efforts by researchers to lessen the threat have been demanded. Experimental and theoretical studies to cope with the hazardous influence by hazardous materials can be exploited in the near future. Your valuable novel and insightful research results would contribute to deal with this recent and future issue. We are open to any sorts of research topics on the hazardous materials, which will be more widely exposed to many other scientists while searching for the related papers. We look forward to accepting your great and beautiful works.
Dr. Gregory W. Peterson

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 30th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt
Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
