

Special Issue

Studies in Polymer Degradation

Message from the Guest Editors

With this Special Issue of *Molecules*, we invite the academic community to submit original articles, reviews, and short communications on topics such as degradation mechanisms (thermal, photochemical, chemical, enzymatic, and biological), new analytical methodologies for monitoring degradation and characterizing by-products, the degradation of sustainable polymers, including biopolymers and oxodegradable plastics, environmental impacts and innovative solutions for recycling and upcycling, and computational modelling and simulations to predict the behaviour of degradable polymers. We hope to contribute not only to highlighting the current state of polymer degradation, but to advancing this multidisciplinary field by encouraging innovative solutions to the scientific and technological challenges of polymer degradation.

Guest Editors

Dr. Anna Raffaella de Matos Costa

Prof. Dr. Edcleide Maria Araujo

Dr. Bastos Y. M. De Almeida

Deadline for manuscript submissions

15 November 2025

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
