Message from the Guest Editor

This Special Issue devoted to honoring of professor Giovanni Dugo on the Occasion of His 80th Birthday. The study of food chemistry will be collected communications, research articles, and high-quality review papers in research fields relating to chemical biology. It is our great pleasure to invite you to submit a manuscript to this Special Issue; regular articles, communications, as well as reviews are all heartily welcome.

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 30th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

Editor-in-Chief
