

Special Issue

Analysis and Application of Bioactive Compounds in Functional Foods

Message from the Guest Editors

The aim of this Special Issue is to collect the most recent and significant contributions on the innovative and green approaches applied to extract, purify, and analyze bioactive compounds and the metabolites generated when functional food or food supplements are consumed. Furthermore, research on the most recent and innovative application of bioactive compounds is encouraged. Particular emphasis will be placed on the use of bioactive compounds as ingredients for novel foods and the development of analytical methods for bioaccessibility studies. The Special Issue welcomes the submission of original scientific articles, short communications, and reviews.

Guest Editors

Dr. Adele Papetti

Drug Sciences Department, University of Pavia, 27100 Pavia, Italy

Dr. Vanessa Pellicorio

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 30th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
