

# Special Issue

## Gene Delivery

### Message from the Guest Editor

Gene therapy promises effective treatment for a variety of diseases, including cystic fibrosis, cancer and Alzheimer's disease. Safe and efficient gene delivery vehicles are essential to advance gene therapy to clinical arena. Several investigators are involved in developing new carrier materials and fabricating functional materials aimed at improving gene therapy protocols. This Special Issue of *Molecules* will publish a collection of articles with a focus on "Gene Delivery", including DNA and RNA delivery using viral and non-viral vectors. Original articles and reviews will be published in this Special Issue.

## About the Journal

### Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

---

### Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
