Catalysis and Its Contributions to Society: Theme Issue Honoring Professor Gerard van Koten on His 80th Birthday

Message from the Guest Editor

Catalysis continues to provide a versatile platform in developing facile methodologies for products on which our everyday lives depend. Professor Gerard van Koten is a pioneer in this field, and his research in organometallic chemistry has contributed significantly in advancing the scope of fine chemical synthesis. *Molecules* is honored to host a Special Issue entitled "Catalysis and Its Contributions to Society: Theme Issue Honoring Professor Gerard van Koten on His 80th Birthday" and congratulate Professor Gerard van Koten in celebrating another milestone in 2022, together with the outstanding contributions he has made to the growth of homogeneous catalysis. and the Editors of *Molecules* invite scientists to join them in celebrating Professor Gerard van Koten and his contributions to science by submitting original research articles as well as reviews to this Special Issue.

Guest Editor

Prof. Dr. Ashok Kakkar

Department of Chemistry, McGill University, 801 Sherbrooke St. West, Montreal, QC H3A 0B8, Canada

Deadline for manuscript submissions

closed (31 August 2022)

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 29th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
