# Protein Kinases and Their Inhibitors

### Message from the Guest Editors

It is a great pleasure to invite you to contribute to this thematic Special Issue of *Molecules* entitled “Protein Kinases and Their Inhibitors”, which will cover the latest research trends and applications in the field.

Submissions of reviews and original research papers are highly welcome. Topics of interest include, but are not limited to, the following:

- Design and discovery of novel small-molecule protein kinase inhibitors for disease treatment;
- Drug repositioning of protein kinase inhibitors.

## About the Journal

### Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.
