

Special Issue

Advances in Selenium Catalysts and Antioxidants

Message from the Guest Editors

Selenium (Se) has recently become an important element in a diverse range of research fields, such as biology, biomimetic chemistry, medicinal chemistry, organic synthesis, material science, etc., owing to its characteristic redox behaviors, which are similar but discretely different from those of sister chalcogen elements such as sulfur (S) and tellurium (Te). In this special issue of *Molecules*, we invite original research articles and reviews on related topics, focusing on the latest advances in selenium catalysts and antioxidants. Prof. Dr. Claudio Santi

Guest Editors

Prof. Dr. Michio Iwaoka

Department of Chemistry, School of Science, Tokai University,
Kanagawa, Japan

Prof. Dr. Claudio Santi

Group of Catalysis and Organic Green Chemistry, Department of
Pharmaceutical Sciences, University of Perugia, 06123 Perugia, PG,
Italy

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
