

## Special Issue

# Exclusive Papers of the Editorial Board Members and Topical Advisory Panel Members of *Molecules* in the Section “Applied Chemistry”

### Message from the Guest Editors

This Special Issue of *Molecules* is dedicated to recent advances in applied chemistry research areas and comprises a diverse selection of exclusive papers from the Editorial Board Members (EBMs) and Topical Advisory Panel Members of the Section “Applied Chemistry”. It focuses on highlighting recent interesting investigations conducted in the laboratories of our section’s EBMs and aims to represent our section as an attractive open access publishing platform for applied chemistry research.

## About the Journal

### Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 30th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarInLit, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
