Special Issue

Environmental Analysis of Organic Pollutants, 2nd Edition

Message from the Guest Editors

Following the success of the first Special Issue "Environmental Analysis of Organic Pollutants", in which 20 research papers and 1 review papers were published, we have decided that the time has arrived to launch a second edition. The environmental impact of organic pollutants, especially persistent and emerging organic pollutants, has attracted extensive attention, and related research has developed rapidly. Research in organic pollutants is a popular topic in the environmental field. Industrial production and other human activities emit a large number of organic pollutants, which are widely distributed in air, water, sediment, soil, and other environmental media. A series of research projects has been carried out on the development of analytical methods for organic pollutants, the distribution of environmental media, environmental concentration. environmental fate, the exploration of new pollutants. and the non-target analysis of organic pollutants. The aim of this Special Issue is to collect original research papers and review articles focused on the abovementioned aspects of organic environmental pollutants.

Guest Editors

Prof. Dr. Wenbin Liu

College of Resources and Environment, University of Chinese Academy of Sciences, Beijing, China

Dr. Chunci Chen

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 29th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
