

## Special Issue

# Novel Synthetic Protocols and Applications of Triazoles

### Message from the Guest Editor

This Special Issue seeks to showcase the forefront of research in the synthesis and applications of 1,2,3-triazoles. We invite contributions that introduce novel synthetic protocols, advancing the current methodologies and expanding their versatility. Furthermore, we encourage submissions that highlight innovative applications of 1,2,3-triazoles, encompassing areas from medicinal chemistry and material science to catalysis. This Special Issue aims to provide a comprehensive view of the recent developments in the field, bridging gaps between synthesis and real-world applications of this versatile heterocycle.

## About the Journal

### Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

---

### Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
