# Exclusive Papers Collection of Editorial Board Members and Invited Scholars in Applied Chemistry

### Message from the Guest Editors

I am pleased to announce this Special Issue, entitled “Exclusive Papers Collection of Editorial Board Members and Invited Scholars in Applied Chemistry”. This Special Issue will be a collection of high-quality papers from Editorial Board Members and invited scholars in the field of applied chemistry. The aim is to provide an attractive open-access publishing platform for applied chemistry research data, and a venue for networking and communication between applied chemistry and scholars in this field. Both original research articles and comprehensive review papers are welcome, addressing current critical issues in the field, grounded in sound science and providing authoritative commentary as well as novel concepts. All papers will be published in full open access after successful peer review.

## About the Journal

### Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.
