# Recent Contributions of Female Scientists to the Advancement of Medicinal Chemistry

## Message from the Guest Editors

To emphasize women's contributions to the field of medicinal chemistry, our journal, *Molecules*, will launch a Special Issue on "Recent Contributions of Female Scientists to the Advancement of Medicinal Chemistry" to be published in *Molecules* (ISSN 1420-3049, https://www.mdpi.com/journal/molecules) in 2020. This Special Issue will include high-quality papers and review articles in all areas of medicinal chemistry. We encourage all research groups (led by men or women) to contribute original research papers or an up-to-date, comprehensive review, highlighting recent developments in any area of medicinal chemistry.

## **About the Journal**

## Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.
