

## Special Issue

# Micro and Nanostructures for Applied Chemistry and Medical Sciences

### Message from the Guest Editors

Nowadays, the wide variety of micro and nanostructure of materials and their different physical forms allow the modifications of properties, enhancing their performances and leading to new applications in different fields. Applications of micro and nanostructures of drug molecules for diagnosis, therapeutics, and cosmetics are welcome in both review and research papers as well. Colleagues are invited to propose manuscripts with original character, with a special focus on health and materials. Molecules that improve food quality, their properties, structure, and health impact are welcome, as well as molecules of materials in biomedical applications. You are welcome to visit the [Website](#) and submit your tentative abstract [here](#). We look forward to receiving your contribution to the SI!

## About the Journal

### Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

---

### Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
