

Special Issue

Natural Products in Asia

Message from the Guest Editors

Natural products have been known to be an important source for drug discovery. Natural product scientists explore different environments and ecosystems in order to discover unique bioactive structures. This Special Issue of *Molecules* publishes work from scientists in Asian countries, as well as contributions from other countries concerning natural products of Asia and introduces information on the molecular mechanisms of health promotion, the therapeutic effects of natural products and their extracts, original basic studies regarding the chemical, biological and pharmacological activities of small molecules obtained from natural products and new extracts of natural products. Welcome to visit the Website: [Link](#) We look forward to your contribution!

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 30th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarInLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
