

Special Issue

Natural Products and Nature-Inspired Synthetic Derivatives in Parkinson's Disease Drug Discovery

Message from the Guest Editor

Parkinson's disease (PD) is the second most common neurodegenerative disease. this Special Issue aims to include original or review articles on herbal extracts, natural products or nature-inspired synthetic derivatives with an interest in PD. Detailed studies of their mechanisms of action, the *in vitro* and *in vivo* models used, and new therapeutic approaches are also welcome. You are welcome to visit the [website](#), submit the [abstract](#), and [full paper](#). If you have any questions, please feel free to contact the managing editor Larry Li (larry.li@mdpi.com). We look forward to receiving your contribution!

Guest Editor

Dr. Dolores Viña

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
