

Special Issue

Current Advances in Medicinal Phytochemistry—A Themed Issue in Honour of Professor Simon Gibbons

Message from the Guest Editors

Dear Colleague, *Molecules* launched a theme issue in honor of Professor Simon Gibbons. You are welcome to contribute original research papers and review articles for the Special Issue of *Molecules* that will honor Prof. Simon Gibbons for his contribution in the field of Medicinal Phytochemistry. In the Special Issue, we aim to collect original research articles and review articles in the following topics:

- Plant-derived antibacterials
- Natural product bacterial resistance modifying agents
- The chemistry and pharmacology of novel psychoactive substances and drugs of abuse
- Phytochemistry of Herbal drugs
- Bioactivity-guided isolation and structure characterization of compounds from medicinal plants
- Bioactive potential of metabolites derived from plant endophytes
- Synthetic transformations of biologically interesting compounds

You are welcome to visit the [webiste](#) and submit your tentative abstract [here](#). Any questions please feel free to contact Larry Li (larry.li@mdpi.com).

Guest Editors

Dr. Agnieszka Ludwiczuk

Department of Pharmacognosy with the Medicinal Plant Garden,
Medical University of Lublin, Lublin, Poland

Prof. Dr. Yoshinori Asakawa

Faculty of Pharmaceutical Sciences, Tokushima Bunri University,
Tokushima, Japan

Deadline for manuscript submissions

closed (31 March 2022)

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
