Volatile Compounds and Smell Chemicals (Odor and Aroma) of Food—Second Edition

Message from the Guest Editor

This Special Issue deals with all aspects of volatile compounds research in the food sector and/or the analytical methods and strategies adopted to profile, measure, identify, and monitor these analytes from food. I warmly invite colleagues to submit their original research or review articles. You are welcome to visit the [website](#), submit the [abstract](#), and [full paper](#). Any questions, please feel free to contact the managing editor Larry Li (larry.li@mdpi.com). We look forward to receiving your contribution.

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany
