

## Special Issue

# NMR-Based Metabolomics and Human Health

### Message from the Guest Editor

This special issue aims to demonstrate research advancement of NMR-based metabolomics in methodological development and its applications. Topics in methodological development include the detection of biofluids by HR-NMR and tissues by HR-MAS NMR and/or MRS, spectral processing and data analysis, machine learning, and network construction; applications focus on clinical disease within human and animal and food analysis, such as disease diagnosis, pharmacology, therapeutic evaluation, disease classification, food chemistry, origin identification and authenticity, food safety, quality control, and nutritional analysis of foods. All article types, including original research, short communications, and reviews, are welcome.

### Guest Editor

Prof. Dr. Jianghua Feng

Department of Electronic Science, Xiamen University, Xiamen, China

### Deadline for manuscript submissions

closed (30 November 2022)

## About the Journal

### Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

---

### Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
