Natural Products: Focus on Antimicrobial and Antitumor Properties

Message from the Guest Editors

Dear Colleague, This Special Issue of *Molecules* will focus on relevant knowledge around natural products and their impact on public health and disease to provide the most recent perspectives in this area. Papers in the form of original in vitro, preclinical, and clinical studies, as well as review articles, are welcome. You are welcome to visit the [webpage](#), submit the [abstract](#), and [full manuscript](#). Any questions, please feel free to contact the managing editor Larry Li (larry.li@mdpi.com). We look forward to receiving your contribution.

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 30th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.
