Featured Reviews in Natural Products Chemistry

Message from the Collection Editors

This Special Issue aims to compile reviews covering the most recent advances in the use of natural compounds in any scientific fields, with special emphasis on metabolic disorders, cancer, antimicrobials development, and cosmetics. Reviews covering extractive methods or “omic” techniques are also welcome. You are welcome to visit the [website](#), submit the [abstract](#) and [full paper](#). If you have any questions, please feel free to contact the managing editor Larry Li (larry.li@mdpi.com). We look forward to receiving the contributions from you.

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 30th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

Editor-in-Chief
