# **Special Issue**

# 50th Anniversary Issue of Artemisinin: The Successful Use of Natural Products against Parasitic Agents

## Message from the Guest Editors

Dear Colleague. This Special Issue is dedicated to the 50th anniversary of artemisinin, a fascinating molecule that has changed the world and has highlighted the role of natural compounds in the drug discovery process. Similar to artemisinin, other sesquiterpene lactones and natural compounds could be promising candidates for the development of new medicines. This Special Issue will focus on bioactive natural compounds as potential leads for the treatment of neglected diseases. Research papers dealing with natural compounds as well as semisynthetic derivatives with activity against causative agents of neglected diseases will be considered. Other infectious diseases having consequences in public health and of high relevance worldwide will also be included. You are welcome to visit the website and submit your abstract here. We are looking forward to receiving your contribution!

## **About the Journal**

## Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 29th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

#### Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

#### **Author Benefits**

## **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

### **Journal Rank:**

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

### **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
