# Novel Natural Compounds in Treatment of Diabetes

### Message from the Guest Editor

Diabetes mellitus (DM), specially type 2 diabetes mellitus (T2DM), is recognized as a serious public health concern with a considerable impact on human life and is referred to a metabolic disorder of multiple etiologies along with serious complications. Despite of the presence of many antidiabetic drugs in the marke, there are invaluable pool of studies to discover biologically active lead compounds or even new therapeutic agents, the main reason for the continuous search for new antidiabetic drugs; is the common side effects. The biggest challenge today in pre-clinical drug discovery is the identification of a drug candidate that is, effective with low cost production as well as non-toxic such as drugs derived from natural soures.

### **Guest Editor**

Prof. Dr. Eman M. Othman

- Cancer Therapy Research Center (CTRC), Department of Biochemistry-I, Biocenter, University of Würzburg, 97074 Würzburg, Germany
- 2. Department of Biochemistry, Faculty of Pharmacy, Minia University, Minia 61519, Egypt

### Deadline for manuscript submissions

closed (31 October 2023)

## **Molecules**

an Open Access Journal by MDPI

Impact Factor 4.6 CiteScore 8.6 Indexed in PubMed

## **About the Journal**

### Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 29th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

### Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

### **Author Benefits**

## **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

### **Journal Rank:**

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

### **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
