

Special Issue

Natural Products as Tools in Drug Discovery and Development

Message from the Guest Editors

Natural products feature great structural and chemical diversity and constitute a wide library of small molecules, which are often templates for novel discoveries in medicinal chemistry and pharmacology.

The aim of this Special Issue is to collect full papers, short communications, and review articles from research groups all over the world to show the most recent findings about the isolation, structural characterization, synthesis, and biological activity of natural products of microbial, fungal, and plant origin from known and novel sources and in the use of such compounds as tools for the design and development of new generations of drugs.

This Special Issue will be of great interest for several categories of scientists operating in natural product chemistry, medicinal chemistry phytochemistry, pharmacology, molecular biology, pharmacognosy, and others.

Guest Editors

Prof. Dr. Francesco Epifano

Department of Pharmacy, University of G. d'Annunzio Chieti and Pescara, Chieti, Italy

Dr. Serena Fiorito

Department of Pharmacy, 'G. d'Annunzio' Chieti-Pescara University, Via dei Vestini 31, 66100 Chieti, Italy

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 30th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarInLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
