

## Special Issue

# Natural Products for Neurodegenerative Diseases

### Message from the Guest Editor

The aim of this Special Issue, is to collect diverse research articles and reviews describing the possible and future therapeutic applications of compounds or commercial medicines, as well as their synthesis and isolation (if natural products); of interest are also theoretical studies of structure–activity relationships of heterocycle and hydrocarbon compounds that incorporate active fragments/moieties of natural products and are being tested for their possible application in the treatment of chronic diseases. The critical and objective perspective offered by these contributions will help us to appreciate and emphasize the latest advances in the field of organic and medicinal chemistry.

### Guest Editor

Prof. Dr. Eduardo Sobarzo-Sánchez

1. Department of Organic Chemistry, Faculty of Pharmacy, University of Santiago de Compostela, 15705 Santiago de Compostela, Spain
2. Instituto de Investigación y Postgrado, Facultad de Ciencias de la Salud, Universidad Central de Chile, Santiago 8370292, Chile

### Deadline for manuscript submissions

closed (31 July 2020)

## About the Journal

### Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 29th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

---

### Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of  
Münster, Corrensstrasse 48, D-48149 Münster, Germany

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarInLit, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore  
- Q1 (Organic Chemistry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
