

Special Issue

Peptide Chemistry: Recent Trends and Advancements

Message from the Guest Editors

This Special Issue aims to bring together the latest research findings and advancements in peptide chemistry, with a focus on recent progresses in peptide synthesis, peptide stapling, chemo- and site-selective bioconjugation, and peptide multicyclization. We welcome original research articles and reviews covering the topic “Peptide Chemistry: Recent Trends and Advancements”. We invite all researchers and experts in the field of peptide chemistry to submit their manuscripts and share their latest research findings and insights. We are committed to ensuring a rigorous peer-review process to maintain the high quality and scientific standards of this Special Issue. We hope you will consider making a submission and participate in this exciting and rapidly evolving field of peptide chemistry.

Guest Editors

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 29th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarInLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
