# 10th Anniversary of the Bioorganic Chemistry Section of Molecules

### Message from the Guest Editors

In 2025, we will be celebrating the 10th anniversary of the Bioorganic Chemistry Section of Molecules. To mark this important milestone, a Special Issue entitled “10th Anniversary of the Bioorganic Chemistry Section of Molecules” is being launched. This Special Issue will include communications, full papers, and high-quality review papers from the field of bioorganic chemistry. We would like to invite and encourage all research groups in the various areas of bioorganic chemistry to make a contribution to this important and celebratory Special Issue.

## About the Journal

### Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 30th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.
