

Special Issue

Anti-Inflammatory Natural Compounds

Message from the Guest Editor

Natural Products have been a long-standing robust source of anti-inflammatory molecules for decades. Plants in particular, have demonstrated a varying level of chemistry associated with this activity, including flavonoids, terpenes, phenolics, saponins and many more unprecedented structure classes. This special issue is dedicated to capture the discovery of new secondary metabolites identified from natural sources that has the potential of exhibiting anti-inflammatory properties. Original research papers, communications, review articles are all welcomed.

Guest Editor

Dr. Ritesh Raju

School of Medicine, Western Sydney University, Penrith, Australia

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 29th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
